aluminum exposure in chronic renal failure in Iberoamerica at end of 1990s, 320(2):96–99
patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80
Amiodarone
thyrotoxicosis type 2 induced by, 320(4):288–291
toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1):64–68
Aneurysm, basilar, rapid growth of, 320(4):281–285
Angioedema, hereditary, precipitated by estrogen replacement therapy in menopausal woman, 320(3):212–213
Anthracyclines, doxorubicin-induced cardiomyopathy, 320(1):59–63
Antiarrhythmic agents, propafenone-induced ataxia, 320(2):151–153
Antibodies, overlap syndrome together with autoantibodies in patient with fatal thrombotic microangiopathy, 320(5):348–351
Anticoagulants, subtherapeutic international normalized ratio despite increasing doses of warfarin, 320(3):214–218
Antiretroviral therapy, highly active, in HIV-associated autoimmune thrombocytopenia, 320(2):117–123
Aortic regurgitation, vasodilator therapy for chronic mitral regurgitation and, 320(3):202–208
Apoptosis, morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319
Arrhythmias
acute, symptomatic atrial fibrillation after sildenafil citrate therapy in patient with hypertrophic obstructive cardiomyopathy, 320(1):69–71
amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1):64–68
cocaine abuse: repolarization abnormalities and ventricular arrhythmias, 320(1):9–12
morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319
Aspirin, fluid retention simulating congestive heart failure after consumption of, 320(1):72–74
Ataxia, propafenone-induced, 320(2):151–153
Atrial fibrillation, acute symptomatic, after sildenafil citrate therapy in patient with hypertrophic obstructive cardiomyopathy, 320(1):69–71
Autoantibodies, overlap syndrome together with autoantibodies in patient with fatal thrombotic microangiopathy, 320(5):348–351
Autoimmune thrombocytopenia, HIV-associated, efficacy of highly active antiretroviral therapy in, 320(2):117–123

Back pain, 65-year-old man with chronic back pain and shortness of breath, 320(3):195–201
Bacterial endocarditis
Citrobacter diversus, 320(6):408–410
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262
Basilar aneurysm, rapid growth of, 320(4):281–285
Beer, nutritional and health benefits of, 320(5):320–326
Biological markers, in diagnosis of different forms of renal osteodystrophy, 320(2):85–89
Bleeding, 35-year-old woman with hematemesis, epistaxis, and ecchymoses, 320(6):388–393
Blood pressure. *See also* Hypertension
association of left ventricular mass with cardiovascular risk factors in African American women, 320(1):13–17
orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of chronic fatigue syndrome, 320(1):1–8
Blood transfusion, transfusion-associated falciparum malaria successfully treated with red blood cell exchange transfusion, 320(5):337–341
Bone disease
adynamic bone and chronic renal failure, 320(2):81–84
biological markers in diagnosis of different forms of renal osteodystrophy, 320(2):85–89
bone marrow necrosis in sickle cell disease, 320(5):342–347
imaging techniques in study of renal osteodystrophy, 320(2):90–95
patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80
renal osteodystrophy: update, 320(2):75
Brain
AIDS vasculopathy, 320(6):379–387
post-herpes encephalitic anterior pituitary insufficiency with hypothermia and hypotension, 320(4):273–277
rapid growth of basilar aneurysm, 320(4):281–285
unilateral internuclear ophthalmoplegia and recovery with thiamine in Wernicke syndrome, 320(4):278–280
Breast cancer, prevention of, 320(1):263–272
Bronchiolitis, respiratory, unusual cause of pulmonary infiltrates in pregnant woman, 320(3):219–221

C1 inhibitor, hereditary angioedema precipitated by estrogen replacement therapy in menopausal woman, 320(3):212–213
Calcitriol
imaging techniques in study of renal osteodystrophy, 320(2):90–95
management of secondary hyperparathyroidism: gap between diagnosis and treatment, 320(2):107–111
medical management of secondary hyperparathyroidism, 320(2):100–106
Cancer
cold agglutinin disease in patient with uterine sarcoma, 320(5):352–354
disseminated intravascular coagulation in lung cancer patient after acute myocardial infarction, 320(5):355–357
prevention of breast cancer, 320(1):263–272

Cardiology Grand Rounds
doxorubicin-induced cardiomyopathy, 320(1):59–63
morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262
surgical therapy for cardiomyopathy, 320(2):135–143
Cardiomyopathy
doxorubicin-induced, 320(1):59–63
reversible hyperthyroidism and cardiomyopathy caused by consumption of iodocasein, 320(2):148–150
surgical therapy for, 320(2):135–143
symptomatic atrial fibrillation after sildenafil citrate therapy in patient with hypertrophic obstructive cardiomyopathy, 320(1):69–71
Cardiovascular disease
association of left ventricular mass with cardiovascular risk factors in African American women, 320(1):13–17
cardiac and plasma catecholamine response to exercise in patients with type 2 diabetes, 320(1):24–30
elevated mortality rates from circulatory disease in African American men and women of Los Angeles County, California, 320(1):18–23
estrogen replacement therapy is underutilized among postmenopausal women at high risk for coronary heart disease, 320(2):124–127
myocardial function during chronic food restriction in isolated hypertrophied cardiac muscle, 320(4):244–248
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262
nutritional and health benefits of beer, 320(5):320–326
rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
vasodilator therapy for chronic aortic and mitral regurgitation, 320(3):202–208
Case Records of the VA Maryland Healthcare System/University of Maryland Medicine
65-year-old man with chronic back pain and shortness of breath, 320(3):195–201
35-year-old woman with hematemesis, epistaxis, and ecchymoses, 320(6):388–393
Case Studies in Ethics, decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378
Castleman disease, heterogeneity of, 320(4):292–295
Catecholamines, cardiac and plasma catecholamine response to exercise in patients with type 2 diabetes, 320(1):24–30
Cerebrovascular disease
AIDS vasculopathy, 320(6):379–387
cardiac and plasma catecholamine response to exercise in patients with type 2 diabetes, 320(1):24–30
Chemical exposure, indoor air effects after building renovation and in manufactured homes, 320(4):249–254
Chemotherapy, doxorubicin-induced cardiomyopathy, 320(1):59–63
Cholesterol, biochemical and metabolic effects of very-low-salt diets, 320(4):233–239
Chronic fatigue syndrome, orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of, 320(1):1–8
Chronic obstructive pulmonary disease, dyspnea scales in assessment of illiterate patients with, 320(4):240–243
***Citrobacter diversus* endocarditis,** 320(6):408–410
Cocaine, repolarization abnormalities and ventricular arrhythmias, 320(1):9–12
Cold agglutinin disease, in patient with uterine sarcoma, 320(5):352–354
Collagen, synthetic nonapeptide derived from sequence of platelet type I collagen receptor inhibits type I collagen-mediated platelet aggregation, 320(6):362–367
Congestive heart failure, fluid retention simulating congestive heart failure after aspirin consumption, 320(1):72–74
Consortium for Southeastern Hypertension Control
biochemical and metabolic effects of very-low-salt diets, 320(4):233–239
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
Constitution, bylaws, and amendments of the Southern Society for Clinical Investigation, 320(3):167–170
Cornea, amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1):64–68
Crohn disease, left hydronephrosis caused by Crohn disease successfully treated conservatively, 320(4):286–287
Cryptosporidium parvum, adoptive transfer of immunity with intraepithelial lymphocytes in severe combined immunodeficient mice infected with, 320(5):304–309
Cyclosporine, rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
Cytokines, serum level of soluble tumor necrosis factor receptor II as index of monocyte-related infectious and inflammatory activity, 320(3):183–187

Diabetes mellitus
cardiac and plasma catecholamine response to exercise in patients with type 2 diabetes, 320(1):24–30
growth hormone in pathogenesis of vascular complications of, 320(2):128–134
perinatal consequences of maternal-fetal Rh blood group interaction in diabetic pregnancy, 320(1):31–35
Diagnosis
biological markers in diagnosis of different forms of renal osteodystrophy, 320(2):85–89
management of secondary hyperparathyroidism: gap between diagnosis and treatment, 320(2):107–111
Dialysis
aluminum exposure in chronic renal failure in Iberoamerica at end of 1990s, 320(2):96–99
decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378
management of secondary hyperparathyroidism, 320(2):107–111
Diet and nutrition
biochemical and metabolic effects of very-low-salt diets, 320(4):233–239
myocardial function during chronic food restriction in isolated hypertrophied cardiac muscle, 320(4):244–248
nutritional and health benefits of beer, 320(5):320–326
Disseminated intravascular coagulation, in lung cancer patient after acute myocardial infarction, 320(5):355–357
Doxorubicin-induced cardiomyopathy, 320(1):59–63
Drug adverse effects
acute generalized exanthematic pustulosis in patient treated with furosemide, 320(5):331–333
amiodarone-induced thyrotoxicosis type 2, 320(4):288–291
amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1):64–68
doxorubicin-induced cardiomyopathy, 320(1):59–63
fluid retention simulating congestive heart failure after aspirin consumption, 320(1):72–74
propafenone-induced ataxia, 320(2):151–153
rapidly progressive glomerulonephritis with ***D*-penicillamine,** 320(6):398–402
reversible hyperthyroidism and cardiomyopathy caused by consumption of iodocasein, 320(2):148–150
rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
thrombocytopenia associated with octreotide, 320(4):296–297
Dyspnea
dyspnea scales in assessment of illiterate patients with chronic obstructive pulmonary disease, 320(4):240–243

65-year-old man with chronic back pain and shortness of breath, 320(3): 195–201

Electron microscopy, morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319

Encephalitis
AIDS vasculopathy, 320(6):379–387
post-herpes encephalitic anterior pituitary insufficiency with hypothermia and hypotension, 320(4):273–277

Endocarditis
Citrobacter diversus, 320(6):408–410
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262

Endothelin
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
regional hemodynamics after chronic nitric oxide inhibition in spontaneously hypertensive rats, 320(3): 171–176

Environmental factors, indoor air effects after building renovation and in manufactured homes, 320(4): 249–254

Epidemiology, patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80

Erythrocytes, orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of chronic fatigue syndrome, 320(1):1–8

Estrogen replacement therapy
hereditary angioedema precipitated by, 320(3):212–213
underutilization among postmenopausal women at high risk for coronary heart disease, 320(2):124–127

Ethics, decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378

Exanthematic pustulosis, acute generalized, in patient treated with furosemide, 320(5):331–333

Exchange transfusion, transfusion-associated falciparum malaria successfully treated with red blood cell exchange transfusion, 320(5):337–341

Eye
amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1): 64–68
unilateral internuclear ophthalmoplegia and recovery with thiamine in Wernicke syndrome, 320(4):278–280

Factitious disorder,35-year-old woman with hematemesis, epistaxis, and ecchymoses, 320(6):388–393

Fetus, perinatal consequences of maternal-fetal Rh blood group interaction in diabetic pregnancy, 320(1):31–35

Fluid retention, simulating congestive heart failure after aspirin consumption, 320(1):72–74

Formaldehyde, indoor air effects after building renovation and in manufactured homes, 320(4):249–254

Founders Medal of the Southern Society for Clinical Investigation
past recipients, 320(3):162
presentation to Dr. Martin Steinberg, 320(3):159–160
recipient's address, 320(3):161–162

Furosemide, acute generalized exanthematic pustulosis in patient treated with, 320(5):331–333

Genetic factors, elevated mortality rates from circulatory disease in African American men and women of Los Angeles County, California, 320(1): 18–23

Genitourinary tuberculosis, in patients with HIV infection, inner-city hospital population, 320(5):299–303

Glomerulonephritis
rapidly progressive, with ***D***-penicillamine, 320(6):398–402
65-year-old man with chronic back pain and shortness of breath, 320(3): 195–201

Glucocorticoids, in pathogenesis of primary hyperparathyroidism, 320(5): 334–336

Growth hormone, in pathogenesis of vascular complications of diabetes mellitus, 320(2):128–134

Guglielmo detachable coils, rapid growth of basilar aneurysm, 320(4): 281–285

Health perception, healthy patients who perceive poor health, 320(1): 36–42

Heart disease. *See* Cardiovascular disease

Heart transplantation
rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
surgical therapy for cardiomyopathy, 320(2):135–143

Hematology
bone marrow necrosis in sickle cell disease, 320(5):342–347
cold agglutinin disease in patient with uterine sarcoma, 320(5):352–354
synthetic nonapeptide derived from sequence of platelet type I collagen receptor inhibits type I collagen-mediated platelet aggregation, 320(6): 362–367
transfusion-associated falciparum malaria successfully treated with red blood cell exchange transfusion, 320(5):337–341

Hemodynamics, regional, after chronic nitric oxide inhibition in spontaneously hypertensive rats, 320(3): 171–176

Hereditary angioedema, precipitated by estrogen replacement therapy in menopausal woman, 320(3):212–213

Herpes simplex encephalitis, post-herpes encephalitic anterior pituitary insufficiency with hypothermia and hypotension, 320(4):273–277

Highly active antiretroviral therapy, efficacy in treatment of HIV-associated autoimmune thrombocytopenia, 320(2):117–123

Histoplasmosis, in AIDS, ileal perforation secondary to, 320(6):406–407

Human immunodeficiency virus (HIV) infection
AIDS vasculopathy, 320(6):379–387
efficacy of highly active antiretroviral therapy in treatment of HIV-associated autoimmune thrombocytopenia, 320(2):117–123
genitourinary tuberculosis in patients with, inner-city hospital population, 320(5):299–303
ileal perforation secondary to histoplasmosis in AIDS, 320(6):406–407

Hydronephrosis, caused by Crohn disease successfully treated conservatively, 320(4):286–287

3-Hydroxy-3-methyl-glutaryl-coenzyme A reductase inhibitors, rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397

Hypercalcemia
course and outcome in patient with primary hyperparathyroidism diagnosed before conception, 320(2): 144–147
pathogenesis in primary hyperparathyroidism, 320(5):334–336

Hyperparathyroidism
primary
asymptomatic, course and outcome of pregnancy in patient with, 320(2): 144–147
pathogenesis of hypercalcemia in, 320(5):334–336
secondary
gap between diagnosis and treatment of, 320(2):107–111
imaging techniques in study of renal osteodystrophy, 320(2):90–95
medical management of, 320(2):100–106
patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80

Hypertension
biochemical and metabolic effects of very-low-salt diets, 320(4):233–239
elevated mortality rates from circulatory disease in African American men and women of Los Angeles County, California, 320(1):18–23
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232

myocardial function during chronic food restriction in isolated hypertrophied cardiac muscle, 320(4):244–248
regional hemodynamics after chronic nitric oxide inhibition in spontaneously hypertensive rats, 320(3):171–176
Hyperthyroidism
amiodarone-induced thyrotoxicosis type 2, 320(4):288–291
reversible, and cardiomyopathy caused by consumption of iodocasein, 320(2):148–150
Hypertrophic obstructive cardiomyopathy, acute, symptomatic atrial fibrillation after sildenafil citrate therapy in patient with, 320(1):69–71
Hypoparathyroidism, adynamic bone and chronic renal failure, 320(2):81–84
Hypopituitarism, post-herpes encephalitic anterior pituitary insufficiency with hypothermia and hypotension, 320(4):273–277
Hypotension
orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of chronic fatigue syndrome, 320(1):1–8
post-herpes encephalitic anterior pituitary insufficiency with hypothermia and, 320(4):273–277
Hypothermia, post-herpes encephalitic anterior pituitary insufficiency with hypotension and, 320(4):273–277
Hypothyroidism, management of myxedematous respiratory failure, 320(6):368–373

Iberoamerica
aluminum exposure in chronic renal failure in, at end of 1990s, 320(2):96–99
patterns of renal osteodystrophy in, 320(2):76–80
Ileal perforation, secondary to histoplasmosis in AIDS, 320(6):406–407
Illiterate patients, with chronic obstructive pulmonary disease, dyspnea scales in assessment of, 320(4):240–243
Imaging, in study of renal osteodystrophy, 320(2):90–95
Infection
adoptive transfer of immunity with intraepithelial lymphocytes in *Cryptosporidium parvum*-infected severe combined immunodeficient mice, 320(5):304–309
case of tuberculosis in Memphis, 320(6):403–405
Citrobacter diversus endocarditis, 320(6):408–410
focal bacterial nephritis presenting as renal mass, 320(3):209–211
genitourinary tuberculosis in patients with HIV infection, inner-city hospital population, 320(5):299–303
ileal perforation secondary to histoplasmosis in AIDS, 320(6):406–407
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262
serum level of soluble tumor necrosis factor receptor II as index of monocyte-related infectious and inflammatory activity, 320(3):183–187
transfusion-associated falciparum malaria successfully treated with red blood cell exchange transfusion, 320(5):337–341
Internal medicine, residency recruitment, 320(6):359–361
Internuclear ophthalmoplegia, unilateral, and recovery with thiamine in Wernicke syndrome, 320(4):278–280
Iodocasein, reversible hyperthyroidism and cardiomyopathy caused by consumption of, 320(2):148–150

Kaposi sarcoma, AIDS vasculopathy, 320(6):379–387

Laryngeal tuberculosis, case in Memphis, 320(6):403–405
Left ventricular assist device, surgical therapy for cardiomyopathy, 320(2):135–143
Leukocytes, increased aggregation induced by γ-globulin, 320(3):177–182
Lobar nephronia, focal bacterial nephritis presenting as renal mass, 320(3):209–211
Low bone turnover
adynamic bone and chronic renal failure, 320(2):81–84
patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80
Lung
amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1):64–68
case of tuberculosis in Memphis, 320(6):403–405
disseminated intravascular coagulation in lung cancer patient after acute myocardial infarction, 320(5):355–357
dyspnea scales in assessment of illiterate patients with chronic obstructive pulmonary disease, 320(4):240–243
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
respiratory bronchiolitis: unusual cause of pulmonary infiltrates in pregnant woman, 320(3):219–221
Lupus nephritis, urinary podocytes for assessment of disease activity in, 320(2):112–116
Lymphocytes, adoptive transfer of immunity with intraepithelial lymphocytes in *Cryptosporidium parvum*-infected severe combined immunodeficient mice, 320(5):304–309
Lymphoma, AIDS vasculopathy, 320(6):379–387
Lymphoproliferative disorders, heterogeneity of Castleman disease, 320(4):292–295

Malabsorption, subtherapeutic international normalized ratio despite increasing doses of warfarin, 320(3):214–218
Malaria, transfusion-associated falciparum malaria successfully treated with red blood cell exchange transfusion, 320(5):337–341
Mechanical ventilation, management of myxedematous respiratory failure, 320(6):368–373
Medical education, residency recruitment, 320(6):359–361
Menopause
estrogen replacement therapy is underutilized among postmenopausal women at high risk for coronary heart disease, 320(2):124–127
hereditary angioedema precipitated by estrogen replacement therapy in menopausal woman, 320(3):212–213
Mental retardation, decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378
Microangiopathy, fatal thrombotic, overlap syndrome together with autoantibodies in patient with, 320(5):348–351
β_2-Microglobulin, biological markers in diagnosis of different forms of renal osteodystrophy, 320(2):85–89
Mitral regurgitation, vasodilator therapy for chronic aortic and regurgitation and, 320(3):202–208
Mixed uremic bone disease, patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80
Monocytes, serum level of soluble tumor necrosis factor receptor II as index of monocyte-related infectious and inflammatory activity, 320(3):183–187
Mortality rates, from circulatory disease in African American men and women of Los Angeles County, California, 320(1):18–23
Multiorgan failure, bone marrow necrosis in sickle cell disease, 320(5):342–347
Munchausen syndrome, 35-year-old woman with hematemesis, epistaxis, and ecchymoses, 320(6):388–393
Myocardial function, during chronic food restriction in isolated hypertrophied cardiac muscle, 320(4):244–248

Myocardial infarction, disseminated intravascular coagulation in lung cancer patient after, 320(5):355–357
Myocytes, morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319
Myxedematous respiratory failure, management of, 320(6):368–373

Nephrotic syndrome, 65-year-old man with chronic back pain and shortness of breath, 320(3):195–201
Neuropathy, role of growth hormone in pathogenesis of vascular complications of diabetes mellitus, 320(2): 128–134
Nitric oxide
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
regional hemodynamics after chronic nitric oxide inhibition in spontaneously hypertensive rats, 320(3): 171–176
Nonsteroidal anti-inflammatory drugs, fluid retention simulating congestive heart failure after aspirin consumption, 320(1):72–74
Nuclear extrusion, morphological patterns of death by myocytes in arrhythmogenic right ventricular dysplasia, 320(5):310–319

Octreotide, thrombocytopenia associated with, 320(4):296–297
Officers of the Southern Society for Clinical Investigation, 320(3): 164–166
Orthostasis, orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of chronic fatigue syndrome, 320(1): 1–8
Overlap syndrome, together with autoantibodies in patient with fatal thrombotic microangiopathy, 320(5):348–351

Parathyroid hormone, pathogenesis in primary hyperparathyroidism, 320(5): 334–336
Parathyroidectomy
imaging techniques in study of renal osteodystrophy, 320(2):90–95
medical management of secondary hyperparathyroidism, 320(2):100–106
***D*-Penicillamine,** rapidly progressive glomerulonephritis with, 320(6): 398–402
Phosphorus, dietary, medical management of secondary hyperparathyroidism, 320(2):100–106
Pituitary function, post-herpes encephalitic anterior pituitary insufficiency with hypothermia and hypotension, 320(4):273–277
Plasma renin activity, regional hemodynamics after chronic nitric oxide inhibition in spontaneously hypertensive rats, 320(3):171–176
Platelets, synthetic nonapeptide derived from sequence of platelet type I collagen receptor inhibits type I collagen-mediated platelet aggregation, 320(6):362–367
Poisoning, thallium poisoning in Israel, 320(5):327–330
Pregnancy
course and outcome in patient with primary hyperparathyroidism diagnosed before conception, 320(2): 144–147
perinatal consequences of maternal-fetal Rh blood group interaction in diabetic pregnancy, 320(1):31–35
respiratory bronchiolitis: unusual cause of pulmonary infiltrates in pregnant woman, 320(3):219–221
Primary care, healthy patients who perceive poor health, 320(1):36–42
Propafenone, ataxia induced by, 320(2): 151–153
Prostacyclin, endothelial dysfunction in pulmonary vascular bed, 320(4): 223–232
Proteinuria, potential causes and approach to evaluation, 320(3):188–194
Pseudoleukopenia, increased leukocyte aggregation induced by γ-globulin, 320(3):177–182
Psychiatry
decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378
35-year-old woman with hematemesis, epistaxis, and ecchymoses, 320(6): 388–393

QT prolongation, cocaine abuse: repolarization abnormalities and ventricular arrhythmias, 320(1):9–12
Quality of life, decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378

Renal disease
adynamic bone and chronic renal failure, 320(2):81–84
aluminum exposure in chronic renal failure in Iberoamerica at end of 1990s, 320(2):96–99
biological markers in diagnosis of different forms of renal osteodystrophy, 320(2):85–89
decisions regarding initiation of dialysis and medical therapy in institutionalized severely mentally retarded, 320(6):374–378
focal bacterial nephritis presenting as renal mass, 320(3):209–211
genitourinary tuberculosis in patients with HIV infection, inner-city hospital population, 320(5):299–303
growth hormone in pathogenesis of vascular complications of diabetes mellitus, 320(2):128–134
imaging techniques in study of renal osteodystrophy, 320(2):90–95
left hydronephrosis caused by Crohn disease successfully treated conservatively, 320(4):286–287
management of secondary hyperparathyroidism: gap between diagnosis and treatment, 320(2):107–111
medical management of secondary hyperparathyroidism, 320(2):100–106
patterns of renal osteodystrophy in Iberoamerica, 320(2):76–80
proteinuria: potential causes and approach to evaluation, 320(3):188–194
rapidly progressive glomerulonephritis with ***D*-penicillamine,** 320(6):398–402
renal osteodystrophy, 320(2):75
rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
65-year-old man with chronic back pain and shortness of breath, 320(3): 195–201
urinary podocytes for assessment of disease activity in lupus nephritis, 320(2):112–116
Renal transplant rejection, chronic, 320(1):43–58
Residency recruitment, 320(6):359–361
Respiratory disease
case of tuberculosis in Memphis, 320(6): 403–405
dyspnea scales in assessment of illiterate patients with chronic obstructive pulmonary disease, 320(4): 240–243
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
management of myxedematous respiratory failure, 320(6):368–373
respiratory bronchiolitis: unusual cause of pulmonary infiltrates in pregnant woman, 320(3):219–221
Retinopathy, role of growth hormone in pathogenesis of vascular complications of diabetes mellitus, 320(2): 128–134
Rh blood group, perinatal consequences of maternal-fetal Rh blood group interaction in diabetic pregnancy, 320(1):31–35
Rhabdomyolysis, and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
Risk factors
association of left ventricular mass with cardiovascular risk factors in African American women, 320(1):13–17
prevention of breast cancer, 320(1):263–272

Severe combined immunodeficiency, *Cryptosporidium parvum*-infected mice, adoptive transfer of immunity with intraepithelial lymphocytes in, 320(5):304–309
Sick building syndrome, indoor air effects after building renovation and

in manufactured homes, 320(4): 249–254
Sickle cell disease, bone marrow necrosis in, 320(5):342–347
Sildenafil citrate, acute, symptomatic atrial fibrillation after sildenafil citrate therapy in patient with hypertrophic obstructive cardiomyopathy, 320(1):69–71
Skin, acute generalized exanthematic pustulosis in patient treated with furosemide, 320(5):331–333
Sodium, biochemical and metabolic effects of very-low-salt diets, 320(4): 233–239
Southern Society for Clinical Investigation
constitution, bylaws, and amendments, 320(3):167–170
Founders Medal recipient's address, 320(3):161–162
newly elected members 2000, 320(3):166
officers 2000, 320(3):164–166
past recipients of Founders Medal, 320(3):162
presentation of Founders Medal to Dr. Martin Steinberg, 320(3):159–160
state of the society 2000, 320(3):155–158
Southwestern Internal Medicine Conference
AIDS vasculopathy, 320(6):379–387
chronic rejection of renal transplants, 320(1):43–58
nutritional and health benefits of beer, 320(5):320–326
in pursuit of the prevention of breast cancer, 320(1):263–272
vasodilator therapy for chronic aortic and mitral regurgitation, 320(3): 202–208
Stress, healthy patients who perceive poor health, 320(1):36–42
Substance abuse, cocaine abuse: repolarization abnormalities and ventricular arrhythmias, 320(1):9–12
Surgical therapy
for cardiomyopathy, 320(2):135–143
native valve infective endocarditis: optimal timing for surgery, 320(4):255–262
Systemic lupus erythematosus, urinary podocytes for assessment of disease activity in lupus nephritis, 320(2):112–116

Tachycardia, orthostatic hypotension, orthostatic tachycardia, and subnormal erythrocyte volume in pathogenesis of chronic fatigue syndrome, 320(1):1–8
Tamoxifen, prevention of breast cancer, 320(1):263–272
Thallium poisoning, in Israel, 320(5): 327–330
Thiamine deficiency, unilateral internuclear ophthalmoplegia and recovery with thiamine in Wernicke syndrome, 320(4):278–280
Thrombocytopenia
associated with octreotide, 320(4):296–297
HIV-associated autoimmune, efficacy of highly active antiretroviral therapy in treatment of, 320(2):117–123
Thyroid disorders
amiodarone-induced thyrotoxicosis type 2, 320(4):288–291
amiodarone toxicity in patient with simultaneous involvement of cornea, thyroid gland, and lung, 320(1): 64–68
management of myxedematous respiratory failure, 320(6):368–373
reversible hyperthyroidism and cardiomyopathy caused by consumption of iodocasein, 320(2):148–150
Transplantation
chronic rejection of renal transplants, 320(1):43–58
rhabdomyolysis and acute renal failure in cardiac transplant recipient due to multiple drug interactions, 320(6):394–397
surgical therapy for cardiomyopathy, 320(2):135–143
Tuberculosis
case in Memphis, 320(6):403–405
genitourinary, in patients with HIV infection, inner-city hospital population, 320(5):299–303
Tumor necrosis factor, serum level of soluble tumor necrosis factor receptor II as index of monocyte-related infectious and inflammatory activity, 320(3):183–187

Urinary markers
proteinuria: potential causes and approach to evaluation, 320(3):188–194
urinary podocytes for assessment of disease activity in lupus nephritis, 320(2):112–116
Urinary tract infection, focal bacterial nephritis presenting as renal mass, 320(3):209–211
Uterine sarcoma, cold agglutinin disease in patient with, 320(5):352–354
Utilization of health care resources, healthy patients who perceive poor health, 320(1):36–42

Vasculature. *See also* Cardiovascular disease
AIDS vasculopathy, 320(6):379–387
disseminated intravascular coagulation in lung cancer patient after acute myocardial infarction, 320(5):355–357
endothelial dysfunction in pulmonary vascular bed, 320(4):223–232
overlap syndrome together with autoantibodies in patient with fatal thrombotic microangiopathy, 320(5):348–351
rapid growth of basilar aneurysm, 320(4):281–285
Vasodilator therapy, for chronic aortic and mitral regurgitation, 320(3): 202–208
Ventilatory assistance, management of myxedematous respiratory failure, 320(6):368–373
Ventricular arrhythmias, cocaine abuse: repolarization abnormalities and, 320(1):9–12
Vitamin D
management of secondary hyperparathyroidism: gap between diagnosis and treatment, 320(2):107–111
medical management of secondary hyperparathyroidism, 320(2):100–106

Warfarin, subtherapeutic international normalized ratio despite increasing doses of, 320(3):214–218
Wernicke syndrome, unilateral internuclear ophthalmoplegia and recovery with thiamine in, 320(4):278–280
Women. *See also* Pregnancy
association of left ventricular mass with cardiovascular risk factors in African American women, 320(1):13–17
elevated mortality rates from circulatory disease in African American men and women of Los Angeles County, California, 320(1):18–23
estrogen replacement therapy is underutilized among postmenopausal women at high risk for coronary heart disease, 320(2):124–127
hereditary angioedema precipitated by estrogen replacement therapy in menopausal woman, 320(3):212–213
